**MICRO JET  
LIGHTER  
AT-2057CR**

Professional Butane Jet Lighter

**Instruction Manual**

READ INSTRUCTIONS AND WARNINGS BEFORE USE

## IMPORTANT SAFETY INSTRUCTIONS

### Warnings:

- DO NOT refill, ignite or use near open flame, heater, furnace or combustible materials.
- KEEP AWAY FROM CHILDREN.
- Be extremely careful as the torch flame is almost invisible in daylight or under strong light.
- Do not touch the flame cover during use or before sufficient time has passed for cooling.
- Do not use continuously for more than five (5) minutes.
- Always be sure the unit is cool before storing.
- If your lighter malfunctions do not try to repair. Contact your dealer or online support for help.

## DESCRIPTION

## HOW TO USE MICRO JET LIGHTER AT-2057CR

### REFILLING

Fig.1

- Use only high-quality butane gas.
  - Refill in a well-ventilated area away from any ignition source and other people.
1. Hold butane canister upside down when filling (Fig. 1)
  2. Firmly press canister nozzle into **Gas Filling Valve**.
  3. Release canister when gas starts to overflow.  
(Gas overflow during refilling is normal and does not indicate a leak)
  4. Wait for a few minutes before use.

Fig.1

### IGNITION

Fig.2

1. Firmly press the bottom of the **Safety Lock "A"** with the tip of your thumb. The lower extremity of the safety lock should tilt inwards indicating the lighter is in unlock mode. (Fig. 2)
  2. While holding in the **Safety Lock** push down on the **Ignition Button "B"**.
- You must do both actions at the same time to ignite the lighter.
  - After use, push the **Flame Nozzle Cover** back into the locked position.

## FLAME ADJUSTMENT

Fig.3

- The **Flame Adjuster (C)** is located at the bottom of the Lighter.
1. Flip out the handle of the **Flame Adjuster** and turn counterclockwise (toward "+") to set a higher setting. Once lit, you can turn the **Flame Adjuster** clockwise or counterclockwise to set to the desired length of flame. (Fig. 3)

## TROUBLE SHOOTING

To reduce the risk of personal injury, property damage, or damage to your **MICRO JET LIGHTER AT-2057CR**, do not attempt to repair the unit body.

PROBLEM	PROBABLE CAUSE	HOW TO CORRECT
Cannot press down on the ignition	a. Safety lock not fully disengaged b. Previous use was over 5 min causing the lighter to overheat.	a. Re-read IGNITION steps b. Wait until lighter has cooled down
Does Not Ignite / No Flame	a. Empty Gas Tank b. Flame adjuster set too high or too low. c. Pushing on/off ignition switch too fast.	a. Refill with butane fuel b. Adjust control lever to a higher or lower position. c. Re-read IGNITION steps
